To Whom It May Concern:

We were privileged to have worked with Libra-Tech Corporation and their manufacturer DSC on our latest project, the Far North Library in Fort Worth. We were very pleased with the outcome, and their dedication and quality of work far exceeded any of our expectations.

They are very knowledgeable, easy to work with and will work hard to make sure everything you envision comes to life, beyond your expectations. They consistently work to achieve any budget goals that you may have.

They're also very professional and committed to quality and service in every design aspect to make your project a success. Their customer service is excellent, and they are always quick to answer questions and resolve any problems that may arise. They truly understand what it takes to get the job done!

Anyone who chooses to work with Libra-Tech Corporation and their manufacturer DSC will be fortunate to seeing an excellent outcome. We recommend them to anyone wanting a smooth easy design, purchase, and install process.

We will definitely be working with Libra-Tech again with all of our future furniture and shelving needs.

Regards,
